

University and Career Destinations 2018

Whilst the vast majority of our students do go on to university, a number either go directly into employment or decide to work first before applying to go to university at a later date. In 2018, one student went on to an engineering apprenticeship, one to work as an data analyst intern at the Bank of England and another as an intern at Deloitte.

Aberystwyth	Psychology	Royal Veterinary College University of London	Biological Sciences
De Montfort University	Business Entrepreneurship and Innovation	Sheffield Hallam	Sport and Exercise Science with Foundation
